

Offer

We specialize in natural (pasteurized, purified) beeswax processing, packaging and export. For production we use modern and high quality equipment, which complies with all the standards of European Union. Raw beeswax is purchased from apiaries located in ecologically clean regions of central and southern Ukraine. The quality of beeswax is strictly controlled and meets all Ukraine and EU standards. All quality documents for export and certificates are available.

Shipping of bulk wax is possible to any point in the world.

We offer to supply natural beeswax (purified, pasteurized):

Beeswax is packed into briquettes with net weight of 10-25 kg

Minimum supply quantity - 100 kg.

By customer's request, beeswax can be packed in any packaging.

Price may vary depending on volume, payment conditions and season.

We can ship worldwide. We are looking forward to see you among our clients!
